

STORM WINES

2021 Santa Barbara County Pinot Noir

Santa Barbara County is one of the most diverse growing areas on the West Coast. With soil diversity and unique micro climates, it is exciting to explore and combine different vineyards to make a wine that captures the region as a whole. Biodynamic, Organic and Sustainable farmed vineyards were used to create this bottling.

Tasting Notes

Black cherry, red licorice, orange peel and tart cranberry fill the nose with hints of dark spice. The palate is full, with bright raspberry and blackberry flavors with a delicate yet structured finish.
