

STORM WINES

2021 Santa Maria Valley Presqu'ile Vineyard Sauvignon Blanc

The Presqu'ile Vineyard is located on the Solomon Hills on the Southern edge of the Santa Maria Valley. The cool Pacific Ocean breeze coupled with old marine floor soils makes this site perfect for growing cool climate Sauvignon Blanc. The 2021 bottling was aged for 6 months on the lees in 100% Acacia wood with 30% being new wood.

Tasting Notes

This vintage has a beautiful floral nose and a slight hint of fennel bulb. There is yellow peach on the palate with long-lasting minerality. The acacia wood gives a nice creaminess to this wine.
